

ECHO website 'Highly Commended' by the Good Web Guide

Our new website has been 'Highly Commended' by the [Good Web Guide](#) (alongside some really big charities) – which is exciting news for us!

We produced our new website with a small team and a smaller budget – and we are really happy with it
□

Thank you to all the volunteers and people who helped to create it – including our design company [Considered Creative](#), who really helped us achieve our aims within the constraints we presented (again, small team and budget!).

We're delighted all the hard work has been acknowledged.
