

Let us know your thoughts for ECHO's new Children's Activity Booklet!

At ECHO we are excited to be working to create an activity booklet for heart children between the ages of 2 and 10 who are staying in hospital.

But we need your help!

We have created a questionnaire – one for **you** and for your **child** – so you can give us an idea of what you'd like to see in the booklet.

They will only take *5 minutes* each to complete and all of your feedback will directly shape how the activity booklet turns out.

At ECHO we aim to provide a booklet which helps bring fun and distraction to children while they are in hospital undergoing surgery, treatment and care.

If you have any further feedback or questions, please [drop us an email](#).

Thank you so much for giving your thoughts. We really look forward to reading your responses and hearing your ideas.
