

Give an hour

Just one hour of your salary can make a positive change – it might lead to new specialist play equipment, books for young children to help them prepare for hospital, or emergency packs for parents in a time of need.

And just one hour of people's time can help us put a smile back on the faces of families experiencing extreme stress.

Don't underestimate the difference an hour of your time can make – just look at what a healthy heart can do. If you use an average of 80 beats per minute, your heart beats about **4,800 times** per hour!

Donate an hour of your time ideas:

[Volunteer as an ECHO Champion](https://echo-uk.org/get-involved/give-an-hour/)

If you have an hour to spare pop along to one of our fundraising sporting events to cheer on our competitors.
