

Join our Private Facebook Group

ECHO oversees a private Facebook group for parents and carers of heart children. With over a 1,000 friends, it gives you a safe space to meet other parents and carers online, to ask questions and share thoughts and feelings. The group is monitored by ECHO staff to ensure appropriate use.

To access this group you must become an ECHO member first.

Why?

Because in order to keep this group as safe a place as possible, we need to know who is in it – and that they have a connection to ECHO.

[Join ECHO](#) and access our private Facebook group.

If you are already a registered ECHO member, please [request access here](#) and we aim to approve your request within 5 working days.

Our [Social Media Policy](#) explains how ECHO monitors and participates in social media.
