

Press & media

We're happy to provide access to real people affected by children's heart disease. We can also provide expert information about the condition, associated lifestyle issues and interesting fundraising stories.

We know that real life stories can bring news to life!

Contact us

Contact us to organise interviews with families affected by congenital and acquired heart disease, and to speak to expert spokespeople on a wide range of topics.

Please contact [Siobhan Morton](#) or [Samantha Johnson](#) with any press enquiries.
