

# Stephen's Story

I volunteer because ECHO has supported my family and I want to help other families. My sister was born with a heart condition, and we have both been members of ECHO Teens and taken part in the various activities they organise.

As well as being part of ECHO Teens I've also volunteered at lots of different ECHO fundraising events, sometimes cheering people on or even dressing up as Eddie ECHO!

I've even taken videos for ECHO at different events which has been a great experience.

I enjoy helping other families and capturing the best moments to share with everyone!

ECHO has given me the opportunity to take part/observe in events which I wouldn't normally see or do, and I really enjoy being part of it all.
